

For Add-ons... in My Account... we list add-ons they've purchased (along with the option to purchase others). Each add-on they've purchased will need the ability to cancel, and when they click that, we'll give them an in-line confirmation that will let them continue or not. If the continue, they'll stay on the page... that add-on will just go away.

IF they have purchased ALL add ons available, then the "Purchase Add ons" link will NOT be visible.

2 List of ALL purchased Add ons or an indication that they have purchased no add ons

3 User selects Cancel for an add on

Hidden DIV opens and displays action information and provides a confirmation along with a way that the user can back out

4 When "CANCEL ADD ON" is clicked:
1. Cancel is sent to the back end
2. The cancelled add on is removed from the list (although there may be a delay in the actual function being turned off since add ons are pre paid monthly)
3. The hidden DIV collapses

5 Whe "QUIT" is clicked:
1. The hidden DIV is collapsed
2. NO action is taken on the add ons
